Education

Vellore Institute of Technology (VIT) — Vellore, India
M.Tech (Integrated) in Software Engineering; CGPA: 9.16/10 — *July 2024 – May 2029*

Homerton Grammar School — Faridabad, India
Class XII, CBSE; Percentage: 90.2% — *2024*

Experience / Internships

React Developer Intern — Biz Trade Mart, Remote
React, Django REST Framework, PostgreSQL — *May 2026 – October 2026*

- Developed and integrated CRM/HRM workflows for leads, tickets, finance, recruitment, HR, and notifications using React, Django REST Framework, PostgreSQL, and JWT.
- Improved backend reliability through multi-tenant permissions, pagination, attachment validation, transaction-safe ticket numbering, and query optimization.
- Enhanced responsive dashboards and role-based navigation; validated 59 authenticated routes using Playwright and 78 backend tests.

Projects

Centralized Exchange — Crypto Trading Platform (Live | Github) *TypeScript, Next.js, Redis, TimescaleDB, Docker*

- Architected a crypto exchange as a Turborepo monorepo with 6 services, from matching engine to UI.
- Engineered an in-memory orderbook with price-time priority, partial fills, and cancels via Vitest tests.
- Designed event-driven order flow with Redis queues/pub-sub, streaming live depth and trade updates.
- Persisted trades in TimescaleDB with materialized views powering 1m/1h/1w candlestick (kline) charts.

Exciladraw — Collaborative Whiteboard (Live | Github) *Next.js, TypeScript, WebSockets, Prisma, PostgreSQL*

- Built a real-time whiteboard with multi-user shared rooms as a monorepo (web + HTTP API + WS server).
- Enforced JWT authentication with bcrypt-hashed passwords and role-safe access to drawing rooms.
- Developed a WebSocket server syncing and persisting room activity across all connected clients.
- Used Prisma ORM with PostgreSQL for persistence and Zod for shared client-server validation.

Ventilair — Industrial Ventilation Web Platform (Live | Github) *React, Framer Motion, Vercel*

- Developed a high-performance, SEO-optimized corporate site for an industrial ventilation manufacturer.
- Created an interactive product catalog with 20+ products, specifications, and image galleries.
- Integrated Framer Motion animations and micro-interactions, deployed live at lcdas.in.

Skills Summary and Relevant Coursework

Languages: C/C++, Python, Java, JavaScript, TypeScript, SQL
Frameworks: React, Next.js, Node.js, Express, Tailwind CSS, Prisma, Hugging Face Transformers
Tools & Technologies: AWS, Docker, Redis, WebSockets, Turborepo, Git, GitHub, PostgreSQL, TimescaleDB
Libraries: Pandas, NumPy, OpenCV
Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Achievements / PORs / Certifications

- Won the Neo4j Graph Builder: Build Sprint by building Helium, an agentic AI knowledge-graph system with Neo4j for traceable organizational memory, deployed at helium.pallabdas.me.
- Won Track 3: Best Use of Sarvam at Hacktoberfest Hack Day Bengaluru 2026 with OnRecord, an open-source AI meeting-memory platform integrating Sarvam AI, Gemma, EmbeddingGemma, and evidence-backed search, deployed at onrecord.pallabdas.me.
- Secured 2nd place in ForkThis (coding + GitHub collaboration) by CSI VIT at Gravitas 2024, 2025 & 2026.
